Application Guide

REIF Fukushima provides opportunities to exhibit latest technologies, information and products related to renewable energy businesses. Based on the Fukushima plan for a new energy society, this year we set the following main themes: a) Expanded introduction of renewable energy, b) Model Construction of hydrogen-based society, c) Building smart communities.

To promote Fukushima as a leading region for a new energy future, REIF Fukushima provides opportunities to exhibit up-to-date technology and information, to participate in the business meetings, and to join networking events for the participants.

We look forward to you joining us as exhibitors.

Exhibitors

- Firms or organizations related to renewable energy and energy saving.
- Firms or organizations aiming to enter or expand their businesses to these fields.
- Research institutions or support organizations in these fields.
