RENEWABLE
ENERGY

Join the established international show for a growing ELECTRIC & POWER industry in Vietnam

Established in Ho Chi Minh city in 2006, Electric & Power Vietnam (EPV) has solidified its position as the country's leading international exhibition for the products, services and technologies that exclusively serve the electric & power industry.

Whether you are an established supplier or new to the industry, Electric & Power Vietnam is where your company needs to be to reach the decision-makers. Mark your calendar to join us for the 8th edition on 10 - 12 November 2021 in Saigon Exhibition & Convention Center (SECC), Ho Chi Minh city, not to mention the co-located Renewable Energy Vietnam (REV) 2021 event that aims to further boost the country's renewable energy, especially solar and wind power.

TOP 10 Visitors' Product / Service of Interest

Visitors' Satisfaction

92%

of visitors satisfied with the result
at EPV18 & RE18

93%

of visitors will
come back in 2021

94%

of visitors were likely to
recommend the shows to
their friends/colleagues

"From the first time we visited Electric & Power Vietnam, we could say that this year's exhibition are much better than the previous ones in scale as well as quality. We really appreciate the profession in organizing, the staffs are enthusiastic and thoughtful in group welcoming. Concurrently, the way that all the exhibitors approach and present are much more open. We hope to have more chances to attend in upcoming exhibitions."

Mr. Chau Ngoc Danh - Engineer - Binh Duong Power

"This was our first time coming to Electric & Power Vietnam exhibition, we were highly impressed by the display scaling as well as diversity of product portfolio. In general, we are satisfied with the result and will come back to next edition."

Mr. Dong Trung Kien - Specialist - PTC4 (Power Transmission Company)

Exclusively Focused Exhibit Profiles

69%

of Exhibitors expressed interest in returning to the 2021 edition

63%

of Exhibitors are likely to recommend the event to their friends/colleagues

Excellent Track Record

We know that there are a lot of manufacturing companies coming to Vietnam to set up their plants. I believe that energy usage will definitely increase. This is 3M's first time exhibiting here and we definitely look forward to participating more. I think this exhibition is the biggest electric and power show in Vietnam. I am very pleased to be here.

*Mr. Francis Ong
Marketing Manager of 3M (Sea Region)*

"This is the tenth year that Rittal has joined in Electric & Power Vietnam. This exhibition proves that it can supply Rittal's standards and qualities. That's why we keep participating in this exhibition. This year's exhibition is very good for co – locating with Renewable Energy Exhibition, which also help attracting more trade visitors for Rittal in specific and for other exhibitors in general. Rittal will definitely come back with Electric & Power Vietnam 2021."

*Mrs. Tu Ngoc Loan – Master of Engineering/
Managing Director of RITTAL – THE SYSTEM*

*The figures were from Postshow Report 2018.
