Gastech 2020 Singapore

Dear Colleague,

Gastech 2020, the 32nd edition of world's leading gas, LNG and energy event, will be held from 8 – 10 September 2020 at the Singapore Expo, Singapore.

The world's energy dynamics are changing with gas and LNG poised to play a pivotal role. Gastech 2020 will be the platform that enables the entire supply chain to come together and drive the industry forward.

The global gas narrative varies across regions, but what doesn't vary is the central position of gas in the global energy mix as one of the key enablers of the energy transition. 2020 is likely to be a pivotal year in this shift towards a decarbonising energy landscape and Gastech will be ideally placed to help the industry understand and capitalise on the changing dynamics

The pivot to natural gas will be at the heart of three core energy agendas for Asia: energy security, clean energy and opening emerging economies. Global energy demand continues to grow, and natural gas is now robustly positioned to deliver on rising needs for cheap, plentiful yet clean energy supplies.

New market opportunities are rapidly opening up for natural gas and LNG across sectors now pushing for cleaner energy solutions. This includes onshore and offshore transportation, heavy primary and manufacturing industries, smaller-scale power generation serving isolated and island economies, and in the economical production of chemicals and fertilisers.

Supply sources and supply chains are evolving as global natural gas trade is set to increase not only in volume, but also in terms of the number of participants, with an increasing number of new buyers and sellers, enabled mainly by the development of LNG flows. NOCs and IOCs have been joined by smaller, agile and entrepreneurial enterprises resulting in greater supply flexibility, liquidity and lower costs of supply.

2020 will also be a critical year for hydrogen. It is enjoying unprecedented momentum around the world and could finally be set on a path to fulfil its longstanding potential as a clean energy solution. Hydrogen has the broad capability to help tackle various critical energy challenges and offers ways to decarbonise a range of sectors where it is proving difficult to reduce emissions.

This brochure will outline the opportunity that participating in Gastech presents as well as the different ways you can engage with the gas, LNG and energy community before, during and after the event.

We look forward to welcoming you to Gastech Singapore in 2020.

Nick Ornstien
Vice President - Gastech
dmg events

The New Energy Landscape

Gas and LNG will play a central role in the global energy mix for decades to come.

As pressure grows to cut carbon emissions across all sectors of the global economy – including power and energy, transport, buildings, and industry – gas is seen as key in providing a pathway towards the goal of zero net carbon emissions.

Many experts see 2020 as a pivotal year for gas on that decarbonisation journey. There will be: new centres of demand and marked changes in how gas will be used by end users; key developments in supply sources and supply chains; an increased role for its use in creating a hydrogen economy, all underpinned by the rise of new technologies and the 4th industrial revolution age.

Gastech 2020 will debate the opportunities and challenges that these developments will highlight in what will be a critical year for gas.

According to the International Energy Association (IEA), global energy demand grew by 2.3% in 2018, the fastest pace this decade. Natural gas emerged as the fuel of choice, accounting for 45% of the rise in energy consumption with global gas demand witnessing a year-on-year growth of 4.6% – the fastest rate since 2010.

If the story in 2018 was largely about the need for gas in China, and in the US especially for power generation, 2019 marked the arrival of much smaller but rapidly growing markets who's demand in aggregate becomes significant. And 2020 will see the likely growth and evolution of this trend.

The industrial sector is expected to be the main contributor to global growth in in the coming years, driven by Asia-Pacific. The region is projected to see an average annual growth rate of 6.4% in industrial gas consumption, fuelled by population growth and economic development.

In transport, implementation of IMO 2020 will see LNG become an important fuel in the maritime sector. In

addition, LPG and CNG (Compressed Natural Gas) will emerge as a fuel for vehicle fleet transportation.

This increasing gas demand will call for accelerated development of supply sources and supply chains.

The IEA has forecast global natural gas production to rise from 3940 billion cubic metres (bcm) in 2018 to 4332 bcm by 2024, an average annual increase of 1.6%. And although the United States has emerged in recent years as the largest individual contributor to this increase as a result of shale gas production for both domestic use and export, global natural gas trade is set to increase not only in volume but also in terms of the number of buyers and sellers.

The LNG export picture is redefined by the development of Australia and the US, which challenge the strong position of the Middle East. As international LNG transactions become the main driver of the expansion in global gas trade, sourcing has become more multi-faceted. NOCs and IOCs have been joined by smaller, agile and entrepreneurial enterprises. These developments will deliver greater supply flexibility, liquidity and lower costs of supply.

This growing supply and trade in gas will, in 2020, start to see different uses as pressure grows to tackle climate change. The IEA said 2019 would be a year of “unprecedented momentum” for hydrogen, and this trend will take hold in 2020. Here, natural gas will play a fundamental role.

Hydrogen is a versatile energy carrier, offering a method of long-term storage of renewable electricity in the power sector. But most importantly, it offers a way of cutting CO2 emissions in difficult to decarbonise sectors such as: aviation; industries, including chemicals, steel and cement; heating; and buildings. Low-cost natural gas reforming is already the most widely used method for hydrogen production and this is likely to be the case for years to come

The energy industry has the opportunity to be at the epicentre of the 4th industrial age, harnessing new technologies such as artificial intelligence, opportunities created by the ‘Internet of Things’, and increasing adoption of automation innovation.

Gastech - The Heart of the Global Gas, LNG & Energy Conversation

Gastech has united the global gas, LNG and energy industries for over 45 years and continues to do so, placing its emphasis on the future and convening the global community. With the industry's support, Gastech is the heart of the global gas, LNG and energy conversation – bringing together companies, organisations and individuals alike to shape the future of energy.

From NOCs, IOCs, utility companies, EPC contractors, E&P companies, service companies, technology providers, shipbuilders and manufacturers – Gastech brings the energy value chains together for progressive discussions, business transactions and cross sector collaboration.

Gastech at a Glance

Over 700 Exhibiting Countries and 16 Exhibiting International Country Pavilions

Showcasing national excellence. International country pavilions are organised each year, regional companies, from SMEs to larger industry players the opportunity to exhibit on a global stage. Identify new export opportunities and markets for your products, explore global or regional business opportunities and find new potential investors.

10 Industry Zones

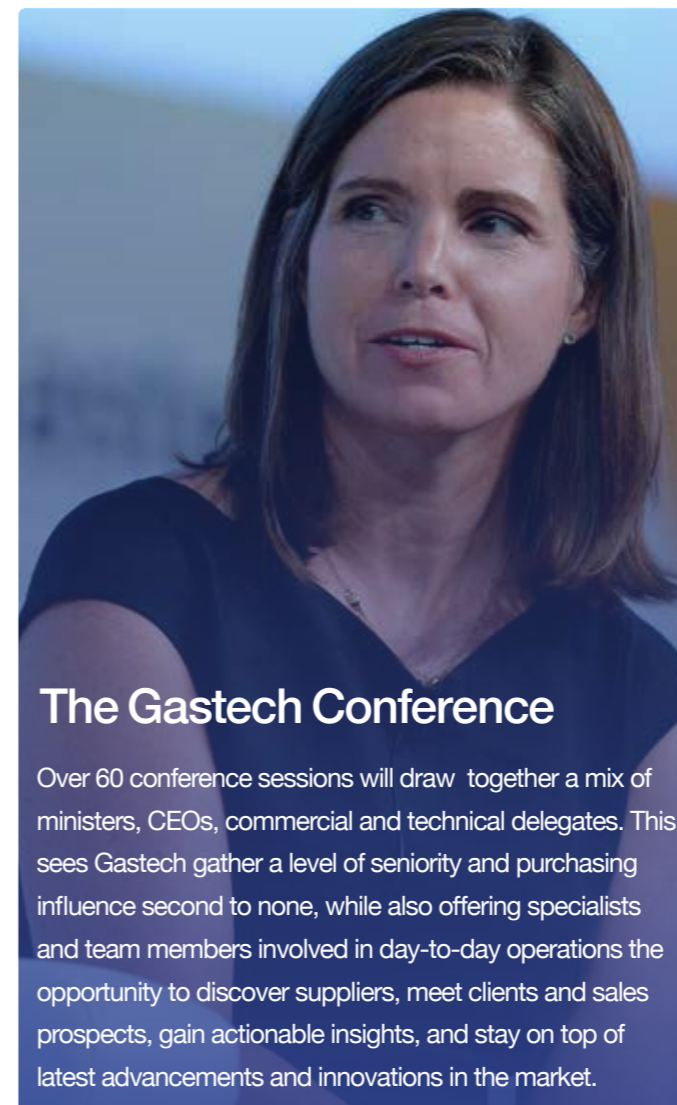

Highlighting innovation in your sector. Industry zones provide specialist companies a platform to showcase their innovations and sector specific solutions to procurement teams and contractors.

Zones include: Shipping & Marine Engineering/ Hydrogen/ Transportation and Logistics/ Port and Terminals/ Industrial Users/ Power & Energy/ Innovation Hub/ LNG Bunkering & Infrastructure/ Digital & Automation/ Security & HSE

Global Meetings Programme & Lounge

A year's worth of meetings in 3 days. Gastech offers a free face-to-face business matching programme to all attendees. Exhibitors can search through attendees by specific criteria, reach out to attendees to schedule meetings and then build a report based on the meetings conducted. Meetings can be scheduled to take place at your stand or within a purpose built meeting lounge with a table concierge service.

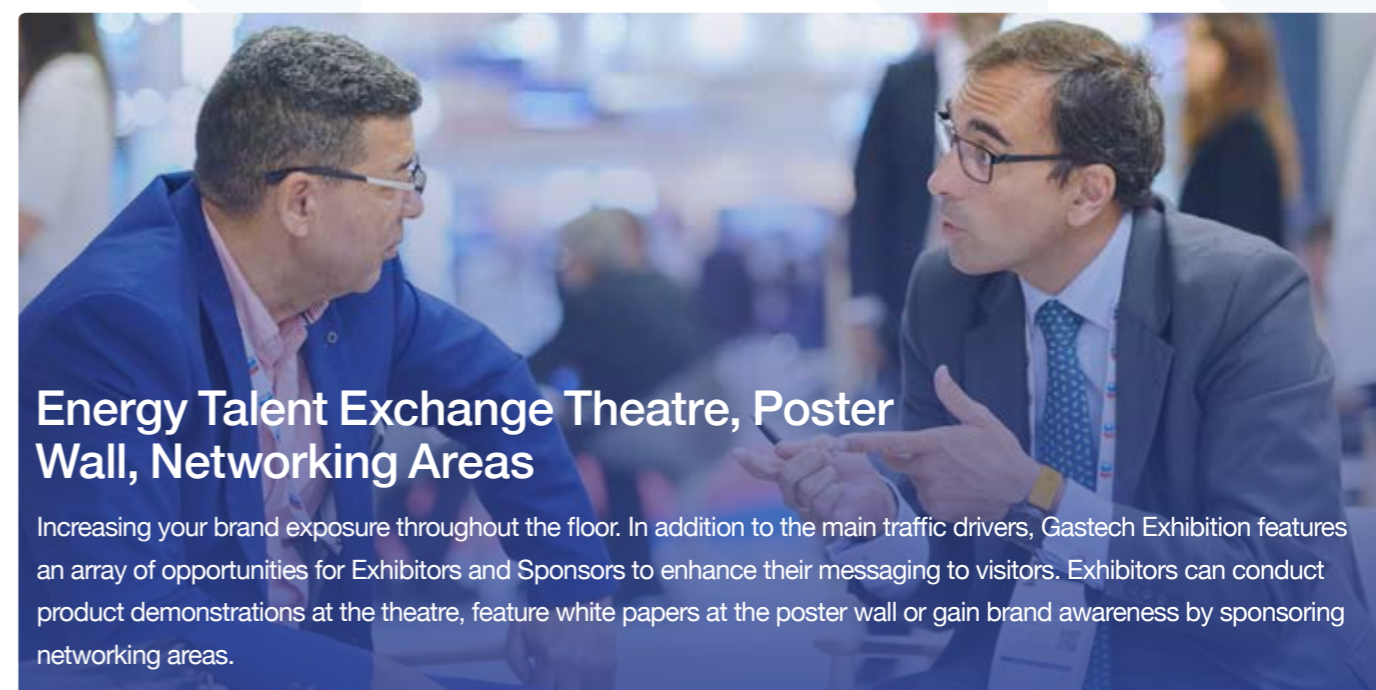

The Gastech Conference

Over 60 conference sessions will draw together a mix of ministers, CEOs, commercial and technical delegates. This sees Gastech gather a level of seniority and purchasing influence second to none, while also offering specialists and team members involved in day-to-day operations the opportunity to discover suppliers, meet clients and sales prospects, gain actionable insights, and stay on top of latest advancements and innovations in the market.

Gastech Boulevard

Driving footfall and traffic from the conference. The main thoroughfare in the Exhibition hall, the Gastech Boulevard connects conference delegates with a direct path from the main conference hall to the delegate lunch area. This high traffic footpath will be clearly signposted and marked, directing delegates past key exhibition stands lining the Boulevard.

Energy Talent Exchange Theatre, Poster Wall, Networking Areas

Increasing your brand exposure throughout the floor. In addition to the main traffic drivers, Gastech Exhibition features an array of opportunities for Exhibitors and Sponsors to enhance their messaging to visitors. Exhibitors can conduct product demonstrations at the theatre, feature white papers at the poster wall or gain brand awareness by sponsoring networking areas.

Meeting your Business Objectives to Deliver a Return-On-Investment

Gastech consistently delivers high quality visitors with significant purchasing and decision making authority. With a spread of international, regional and local attendees, Gastech is where you will meet the people who matter to your business.

Stand Packages

Space Only Package

(minimum 18sqm)
£620/SGD\$1,110 per sqm

An opportunity to build your own unique stand with your own specifications and designs. You will be placed in contact with our official contractors or can use your own contractors to customise your stand, fittings and furniture.

Shell Scheme Package

(minimum 9m², maximum 40sqm)
£710/SGD\$1,270 per sqm

A ready-made stand so you can turn up with your products, services and brochures. Additional features and customisation can also be done through our official contractors. Includes walls, fascia, carpet, electrical socket, and lighting. It does not include furniture.

What's included in the stand package?

Standard Marketing Package

In addition to your marketing package on the Gastech website listing and showguide entry, you will also receive personalised marketing resources, materials and campaign marketing assistance.

A standard marketing package is a compulsory purchase with all stand bookings.

Discounted Conference passes

Discounted rates for your employees to attend the Gastech Conference.

Online Exhibitor Manual account

An Online Exhibitor Manual account to allow you to manage, plan and prepare for your attendance at Gastech 2020.

Dedicated Customer Service Assistance

Dedicated customer service manager and assistance to help with your questions and guide you through the exhibiting process.

Unlimited Exhibition Passes

Unlimited passes for your employees to attend the Gastech Exhibition.

Gastech Exhibition Catalogue

A digital copy of the Gastech Exhibition Catalogue (2019 and 2020).

Selection of Companies that Exhibit and Sponsor at Gastech

“Gastech is a wonderful way for buyers, sellers, infrastructure providers to meet together in one place. It’s an excellent venue for meetings and it’s also an excellent way for vendors to showcase their new technologies.”

Alex Volkov
 Vice President & Head of Global LNG Marketing
 ExxonMobil

Gastech 2020: Singapore EXPO

The Gastech Exhibition will take place in the Singapore EXPO across halls 1 to 6. Spanning a total of 55,000 sqm, it is strategically located between the main conference hall and delegate lunch area.

The floorplan represents a significant increase in size from previous years, reflecting the increase in interest from exhibitors, with two main boulevards driving delegates and attendees around the halls. Dedicated industry zones will create a focus on key industry sectors and country pavilions will showcase regional companies, from SMEs to larger players, in easy to find locations.

Gastech VIP Programme

The Exclusive Gastech Experience for World Energy Leaders

Elite Networking | Expert Insights | Strategic Partnerships

Incorporating:

- VIP Champagne Reception
- VIP Gala Dinner and Awards Ceremony
- VIP Breakfast Briefing
- VIP Lounge

Sponsor the Gastech VIP Programme

The VIP Programme is an exclusive experience for 400 VIP delegates ranging from heads of states and government officials, to CEOs of leading companies from across the international gas, LNG & energy value chain.

Sponsorship across the programme offers you an exceptional opportunity to place your company and brand in front of the world's energy elite.

Opportunities range from branding and advertising through to networking and thought-leadership - each tailored and customised to help you reach your target audience and deliver your business proposition effectively to them.

VIP SPONSORSHIP OPPORTUNITIES INCLUDE:

VIP Champagne Reception	VIP Gala Dinner	VIP Breakfast briefings
VIP Packs	VIP Notebook	VIP Delegate List
VIP Pens	VIP Business Card Holder	VIP Badges
VIP Lounge	VIP Lanyards

Programmes at Gastech 2020

With the gas and LNG industry continuing to look for ways to recruit and retain young, fresh and diverse workforces, the Gastech Energy Talent Exchange provides a vital platform for companies to come forward and discuss strategies for engaging all individuals, no matter the background.

The Diversity & Inclusion in Energy programme is part of the Gastech Energy Talent Exchange. Located on the exhibition show floor and free to attend for all attendees, this programme features discussions from policy makers and industry leaders who will share both their current work and debate future ideas on how to increase workforce diversity.

The Young Gastech programme is also part of the Gastech Energy Talent Exchange. It offers students in their final year of degree studies, as well as young professionals within the first 2 years of their careers the chance to visit the Gastech Conference and Exhibition.

With tailored sessions throughout the conference, the programme will provide successful applicants with the chance to hear industry professionals speak firsthand about their experiences of working in the sector and share their advice to those looking to forge a career in energy.

The Gastech Awards are a global mark of excellence, celebrating and recognising the energy industry's greatest accomplishments.

Presented during the prestigious Gastech VIP Gala Dinner, which gathers hundreds of senior industry figures, the Gastech Awards honours the achievements and contributions of both individuals and organisations who have demonstrated their ability to push the boundaries, achieve excellence and forge the future for the energy industry.

Previous award winners include Novatek (Gas & LNG Project Developer of the Year); Shell (Champion of Workforce Diversity & Inclusion – Organisation of the Year); Charif Souki, Chairman of Tellurian (LNG Innovator of the Decade).

Programme Sponsorship Opportunities

Sponsorship of these programmes offers your company a unique opportunity to bolster the efforts of our industry to retain talent, lead and train the next generation, and to recognise excellence in our industry.

You can choose to sponsor elements of the programmes, or align your company and brand as a title sponsor.

OPPORTUNITIES INCLUDE

Breakfast Sponsor	Morning + Afternoon Networking Breaks	Pin Badges
Lunch Sponsor	Networking Drinks Sponsor	Reception Desk
Moderating Slots	White Paper	

For More Information and to Book Your Sponsorship Please Contact Us on **+44 (0) 203 615 5916** or Email sales@gastechevent.com

Venue Private Meeting Rooms

As the most significant meeting place where the global gas and LNG industry gathers to do business, hosting a private meeting room is an essential aspect to participating.

In order to accommodate your needs, we have secured a limited number of private meeting rooms. Meeting rooms are prioritised for sponsors and exhibitors.

Citrine Rooms

Rooms: 210/211

Capacity:

- Theatre style 30 pax
- Classroom style 15 pax

Investment: £40k/ £71,400 SGD

Opal Rooms

Rooms: 101/107

Capacity:

- Theatre style 42 - 55 pax
- Classroom style 18 - 27 pax

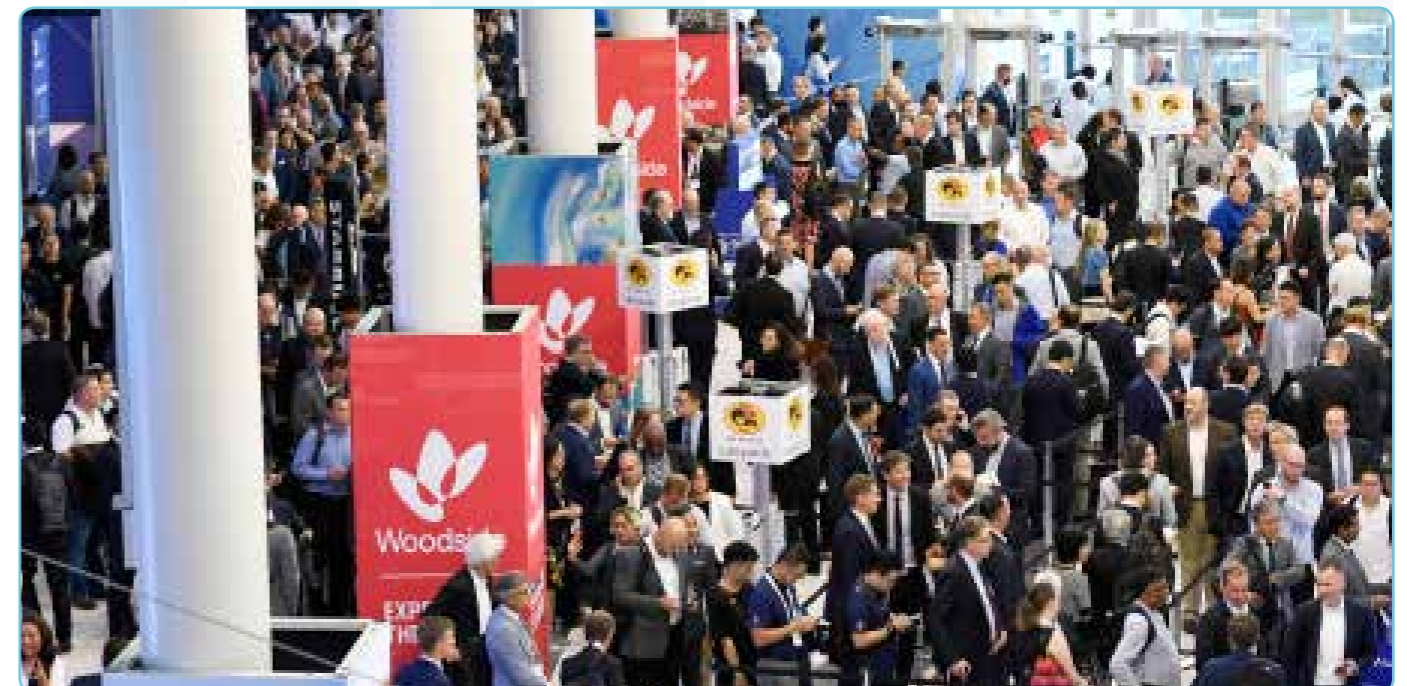

Investment: £50k/ £89,250 SGD

These Private Meeting Rooms are Located Within the Max Atria. For More Information and Prices Please Contact us on +44 (0) 203 615 5916 or email sales@gastechevent.com.

Signage

In addition to sponsoring, companies have the opportunity to place their branding and corporate identity across locations around the venue.

Signage greatly amplifies your corporate profile and visibility in front of the various attendees at Gastech. Various signage opportunities are available to cater for the audience you want to make an impact in front of.

For More Information and to Book Your Sponsorship Please Contact us on +44 (0) 203 615 5916 or email sales@gastechevent.com.

Marketing Campaigns

Exhibitors and sponsors will benefit from being part of an integrated digital and offline marketing campaign, reaching over 4m industry decision-makers and influencers from leading gas & LNG businesses across the world.
