MACH 2028 | Shell, Space & Show Ready Stands

Standard Non-Member Rates

Shell | £510/m² + VAT

The standard shell for MACH comes with:

- Carpet
- Walls
- Ceiling Grid – with fluorescent light fixture
- Fascia boards – with stand name & number
- Electrical socket – suitable for laptops/screens etc...

Exhibitor can request an optional furniture package with a table, chairs and small storage cupboard.

Show Ready | £770/m² + VAT

[minimum Stand Size 12m²]

In partnership with GES the MTA will be offering exhibitors the chance to book their stand space and a modular stand build with custom graphics.

This is a great way for exhibitors to spread the cost of both the stand space and the stand build across the lead up to the show.

Show Ready stands comes with:

- Carpet
- Walls with bespoke seamless graphics
- Lighting – LED spotlights
- Installation/Dismantling & project management
- Electrical Socket Package – suitable for laptops/screens etc...

Exhibitors can select from multiple layouts and designs. The stand elements are designed to be re-used and recycled so have excellent sustainability standards.

Space | **£470/m^2 + VAT**

Space only stands are raw floorspace only and allow you to engage your own contractor for a fully bespoke stand build:

Space Only for MACH 2028 comes with:

- The cost of first lifts on machinery exhibits

All MACH stand types come with the following free on charge:

- An allocation of Exhibitor Parking Passes
- Entries in the online directory and printed publications
- Access to digital marketing assets with your logo/stand number included
- Unlimited staff badges

Visit Connect Access

Visit Connect is the third-party system that allow our exhibitors to:

- Register their exhibition staff
- Create a profile and products that are visible to visitors in Visit Discover
- Scan Visitor Badges
- Generate QR codes for visitors to scan
- Use a unique URL to invite visitors and see who has registered

A licence fee for Visit is added as standard to all MACH stand contracts to ensure that our exhibitors can access these essential systems and collect GDPR compliant data.
