Organised by

Fueling Success: OGA 2023 Drives Collaboration, Innovation, and Business Growth

OGA 2023 was a highly successful event in the oil and gas industry, attracting over 28,530 visitors from 80 countries. The exhibition and conference featured 1142 participating companies from 40 countries, with seven international pavilions showcasing expertise from around the world. The conference, organized in partnership with the Energy Industries Council (EIC), included 424 delegates and 30 speakers who discussed key industry topics.

The event served as a platform for networking, knowledge exchange, and partnership opportunities. It emphasized collaboration and highlighted energy-related issues in the Asia-Pacific region. The event showcased the latest innovations, technologies, and market trends, furthering the industry's commitment to a prosperous energy future.

OGA will return in 2024, From 25-27 September, at the Kuala Lumpur Convention Centre. The event will focus on the theme "Powering Progress Towards a Sustainable Energy Landscape," continuing to drive collaboration and innovation within the industry.
